

The Gods Must Be Us

The Gods Must Be Us: When Fiction Becomes A Miracle

Fiction often introduces us to possibilities that re-direct how we live. The enjoyment of writing a novel of alternate possibilities for how doomsday predictions might play out stepped into an enormous real life challenge as fictional possibilities were put to the test in real-life.

The information carried in these scenarios of how mankind survives more him/herself than the elements is entertaining, yet for those ready to un-morph into the divinity of all of us, it is a manual for transformation.

Ponder whether we are creatures of circumstance or creators of circumstance as you go on a journey of possibilities that might awaken something you didn't know was asleep in you.
